SUMMARY

As an experienced Respiratory Therapist with an extensive background in cardiopulmonary methods for over 20 + I will set my focus on developing and maintaining techniques that will encourage realistic transitions for all patients: by providing the education and basic skills needed to acquire fulfilling lives despite the need for respiratory assistance. I am self-motivated and able to work both independently and as a collaborative team member. I am looking to obtain a position where I can maximize my organizational and interpersonal skills and knowledge which will contribute to my years of experience that will allow me to grow personally and professionally.
