## PROFESSIONAL SUMMARY

---

Texas Board-Certified Registered Nurse with over 5 years of experience delivering high-quality care to patients in PACU, PICU and Medical-Surgical care units. Well organized and forward thinking in managing patient needs while providing excellent customer service.

---

## WORK HISTORY

---

**Registered Nurse, 07/2017 to Current**

**Med Temp Now – Dallas, TX**

- Monitored patient condition, including interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity
- Observed and reported patient condition, progress and medication side effects to accurately document updates
- Accurately documented all elements of nursing assessment, including treatment, medications and IVs administered, discharge instructions and follow-up care
- Managed patients recovering from medical or surgical procedures, including facilitating wound care, ostomy care, pressure ulcer prevention and pain management

**Psychiatric Registered Nurse, 07/2016 to Current**

**Medical City Green Oaks – Dallas, United States**

- Facilitated therapeutic communication, conflict resolution and crisis intervention by redirecting negative behaviors and helping patients regain or improve coping abilities to prevent further disability
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans
- Taught patients how to improve lifestyle choices, dramatically reducing chance of symptom reoccurrence
- Partnered with physicians, social workers, activity therapists, nutritionists and case managers to develop and implement individualized care plans and documented all patient interactions and interventions in electronic charting systems

**Registered Nurse, 07/2015 to 07/2018**

**Total Med Staffing – Appleton, WI**

- Maintained quality care and comfort for patients with heart failure, pulmonary hypertension and other conditions
- Collaborated with interdisciplinary healthcare personnel to meet patients' personal, physical, psychological and cognitive needs
- Partnered with physicians, social workers, activity therapists, nutritionists and case managers to develop and implement individualized care plans and documented all patient interactions and interventions in electronic charting systems
- Provided direct patient care, stabilized patients and determined next course of action
